

NUTRACEUTICALS

Biote Nutraceuticals have been carefully formulated to support bioidentical hormone replacement therapy (BHRT), promote healthy aging, and enhance overall wellness. Backed by more than 80 years of science and medical data, these clinical-grade products have been selected for superior bioavailability and can help ensure a complete and personalized approach to meet your health goals.

IODINE+

THYROID SUPPORT WITH IODINE, ZINC, & SELENIUM

Supports Thyroid Health †

Encourages Hormone Balance †

Promotes Detoxification †

IODINE+ provides three essential trace minerals (iodine, zinc, and selenium) your body needs to maintain optimal thyroid health. Your thyroid depends on iodine to produce vital hormones that regulate your energy levels, metabolism, and overall health.

IODINE+ does more than deliver a daily serving of iodine. This product was specially formulated to optimize absorption by combining iodine with zinc and selenium. This combination helps support the production of two critical hormones that every cell in your body uses—thyroxine (T4) and triiodothyronine (T3). Maintaining healthy iodine levels may also help detoxify and protect against thyroid-damaging heavy metals and toxins.

Supplement Facts	
Serving Size: One Capsule	
One Capsule Contains:	%DV
Iodine (as Potassium Iodide)	12.5 mg 8,333%
Zinc (as Zinc Amino Acid Chelate)	10 mg 91%
Selenium (as L-Selenomethionine)	200 mcg 364%
Daily Value (DV)
