

NUTRACEUTICALS

Biote Nutraceuticals have been carefully formulated to support bioidentical hormone replacement therapy (BHRT), promote healthy aging, and enhance overall wellness. Backed by more than 80 years of science and medical data, these clinical-grade products have been selected for superior bioavailability and can help ensure a complete and personalized approach to meet your health goals.

NMN COMPLEX

NAD+ AND AGING SUPPORT

Produces NAD+ †

Defends Against Aging †

Promotes Healthy Cell Structure †

Age healthier with NMN COMPLEX from BioTE Medical. Nicotinamide Mononucleotide, or NMN for short, works on a cellular level inside your body to provide energy and produce critical aging support compounds like NAD+.

As we age, our NAD+ levels decline. Low levels of NAD+ can make you vulnerable to low energy, cognitive decline, and other early indicators of aging. NMN COMPLEX combines NMN with potent antioxidants (Resveratrol and Pterostilbene) to give your body the building blocks it needs to maintain healthy NAD+ levels, remove senescent cells, and activate sirtuins, which promotes DNA repair.

SUPPLEMENT FACTS

Serving Size: 2 Capsules
Servings Per Container: 30

| Amount Per Serving | %DV |
|---|----------|
| Nicotinamide Mononucleotide | 350 mg * |
| Resveratrol (<i>Polygonum cuspidatum</i> Sieb.) (Root) | 50 mg * |
